

Location: Farm
The Rootser has put on the morning „cock a doodle doo“ an old record-player.

The recordplayer starts to skip...

Rooster looks at the skipping recordplayer in disbelief.

Closeup.
Recordplayer and the record are skipping. - Camera shake, IN-OUT

Cut back to the rooster looking at the recordplayer

Rooster looks angry ... he is not having this. ...

... he swings out ...

... and kicks the recordplayer really hard that it scritch.

The rooster is carrying the record player. Another chicken is hiding behind a barrel to play a prank.

The chicken jumps in front of the rooster. The rooster screams in fright and the record player flies into the sky...

... which then lands on the rooster. The chicken is wondering if the rooster has hurt itself?

The rooster pulled off the record player. He is fine and starts laughing. Then both start laughing.

Millie is waiting anxiously in the bushes at the gate to the farm .She is waiting to give the mailman a fright.

The mailman is driving towards the farm on his bike and whistling happily.

He rides to the gate of the farm and rings his bell...

... and Millie jumps out of the bushes at the same moment.

The mailman is frightened by Millie.

Millie makes a loud “MUUUH“ at the mailman.

The mailman is so frightened that he loses his hat and rides off very fast ...

...while envelopes fly away.

Millie follows the mailman happily while he is riding away from the farm very fast.

You see satellites wandering around the picture which are communicating with the clock. It beeps and father and mother awake.

The father goes to the fridge which is also connected with the net and tells him they are out of milk and is already ordered.

Thier daughter is checking the weather with her app and what she could wear to school.

The parents drive their children to school and then off to work. They are stuck in a traffic jam.

The car's navigation system gets new information about the traffic situation via the satellites ...

... and shows the father a new route to school.

The father works as an air traffic controller who works with the data of satellites.

You see a plane getting his information from the air control via satellites.

The ISS is known for working on new medical achievements and technologie.

You see the mother working a hospital with the new technologie and medical achievements.

In school new space discoveries are taught with a digital-board that shows an animation of the new Rosetta mission.

Satellites also control automated farm equipment for the perfect harvest.

Close up a vegetables which were produced through the help space technologie.

The familie is sitting around the dinner table eating.

Later on they are waching and again a satellite is shown transmitting the TV information. They are watching a rocket lauch for a new satellite.

The families is sitting realxed o their sofa. At the side we see the rrocket in its stages for putting the satellite into space.

The doorbell rings...

... and the father opens the door.

We see a drone with fresh milk which was orderd by the fridge earlier on.
